The Honorable Franklin G. Floete Administrator General Services Administration Washington 25, D. C.

Dear Mr. Floste:

I am delighted that the Public Buildings Service received so many favorable bids for the new Control Intelligence Agency headquarters project on February 25, 1959. As you know, our nespective staffs have been reviewing these bids and are currently amilysing certain technicalities in connection therewith.

In view of the reterminendations with regard to the acceptance of cartain alterestes which our Architects, Harrison & Abramovite. made to the Public Buildings Service Assistant Commissioner for Design and Construction on March 5, 1959, and as a result of the analysis of the Contral Intelligence Agency Technical !teff. I wish to advice you that I weeks approve the award of the contract to the bidder having the lowest aggregate bid for the base bid and alterm tes K. L. M. O. P. S. and T.

Since any delay will represent a costly setback in our schedule, I sarnestly hope that nothing will interfere with the timely award of this contract.

Sincerely.
